QBE
SHUTTERS&LIGHTS

THE UNIVERSAL DEVICE FOR COMFORT IN ALL SPACES

CAME †

CAME.COM

LIVING IN HARMONY WITH OUR SPACES IMPROVES THE QUALITY OF LIFE.

ATTENTIVE LIGHTING MANAGEMENT

Both natural and artificial lighting, as is well known, affects our moods, either positively when environments have calibrated and correct brightness, or negatively when there is no real and effective control of light sources.

enables the best management of light sources to create a comfortable environment in which it becomes easy to:

• Reduce stress

• Improve one's state of mind

• Increase productivity

• Promote creativity

QBE Shutters&Lights

LIGHTING CONNECTED?

THE SOLUTION is QBE Shutters&Lights

Through the integration of natural elements such as light, plants and air into indoor spaces, it is possible to create healthier and more stimulating environments.

Lighting plays a key role in the well-being and performance of the people living in these spaces.
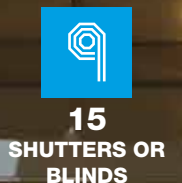

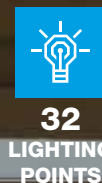

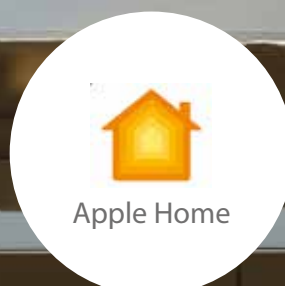

QBE Shutters&Lights for controlling shutters and lights adjusts both natural and artificial light for unprecedented comfort.

HOW QBE WORKS
Shutters&Lights

Over 40 devices for blinds or shutters can be controlled.

Everything can be controlled with your smartphone or connected to your favorite voice assistant App such as Amazon Alexa, Apple Homekit, Google Home and many other Smart-Home devices.

You can set routines, timers, customized light scenes and much more.

Apple Home

32 LIGHTING POINTS

15 SHUTTERS OR BLINDS

CONTROL YOUR HOME EVEN WHEN YOU'RE AWAY

No extra cables are required for QBE Shutters&Lights other than a power supply outlet.

All you need to do to manage the system even when you are away from home is to connect QBE Shutters&Lights to the LAN network cable, thereby accessing the Internet and also enabling a number of additional functions.

Compatible with CAME Connect **technology**

CAME QBE SetUp
is the free App available on Google Play and App Store

EASY TO INSTALL

A QR code for automatic configuration is applied to each device compatible with the MATTER protocol.

All you need to do is scan the QR code with your smartphone to pair the new product with the other devices already in the home.

Setup is a breeze, thanks to the QBE SetUp App with its wizard and automatic discovery function.

In addition, connection with voice assistants is immediate, again in fact you only need to scan the QR Code found on all MATTER devices.

You can connect even lights and shutters that are far away from each other using several QBE at the same time controlling them all with one voice assistant.

COMPATIBLE WITH ALL OTHER DEVICES

The MATTER certification obtained by CAME for QBE Shutters&Lights, allows you to control blinds and shutters, traditional lights and dimming lighting systems by combining them with any other existing smart home system that supports the Matter protocol.

So not only CAME devices, but any compatible device in your home!
