FB01184-EN

CE

p. 2 - Manual FB01184 - EN - 06/2018 - @ CAME S.p.A. - The contents of this manual may be changed, at any time, and without notice. - This is a translation of the original instructions

GENERAL PRECAUTIONS

• Carefully read the instructions before using the device.

• The installation, programming, commissioning and maintenance of the product must only be carried out by qualified technicians, properly trained in compliance with the regulations in force, including health and safety measures and the disposal of packaging.

- The equipment must be destined solely for the use for which it was expressly designed.
- The manufacturer declines all liability for any damage as a result of improper, incorrect or unreasonable use.

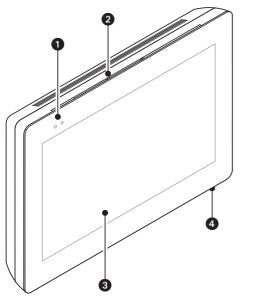

Maintenance and precautions when using the device

- Do not expose the LCD screen to direct sunlight.
- To clean, only use soft, dry, or slightly-moistened cloth rags. Do not use any chemicals.
- Do not block the air vents.

DESCRIPTION

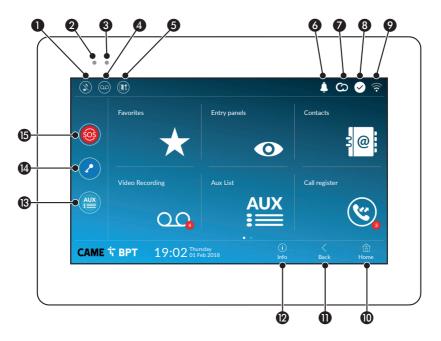

Full-touch speaker video intercom for the X1 system.

Description of parts

- Signaling LED
 Loudspeaker
 Touch screen display
- Microphone.

III The appearance of the homepage may vary according to the system configuration or the user interface.

- Command to exclude call ringer; when the command is active, the red LED is lit.
- 2 The red LED means that the device's ringer is turned off
- The blinking blue LED, when the screen is standing by, means that there are unseen messages or missed calls
- Turns the answering service off or on
- 5 Turn the automatic door opener on or off

This icon appears only if the automatic door opener function is properly set up.

6 The blinking icon means there are unseen messages or missed calls

The grey icon means that the device is enabled for connecting to CAMEConnect; the white icon means that the device is connected to CAMEConnect.

- The white icon means that the device is working properly and is ready to take any calls
- The icon means that the Wifi connection is active and strong
- this button appears on all screens and is for returning to the homepage
- This button appears on all screens and is for returning to the previous page
- This button appears on all screens and is for accessing the information pages
- 1 This activates the preset auxiliary command
- Preset door opener command
- HELP button; It sends a "panic alarm" notification to the assigned concierge, and shows the extension number

This button is featured in systems that require a concierge service.

HOW TO USE THE DEVICE

Answering a call

An image of the caller appears on the screen. The audio from and towards the caller is turned off.

1 Touch the button to answer the call and to turn on the audio communication.

2 Touch the button to refute the call and to return to the homepage.

Options appearing on the screen during a conversation

- 3 Call duration.
- 4 Caller's ID.

Commands that are active during a conversation

(5) It turns on the electric lock of the shown entry panel.

GThis opens the list of auxiliary commands configured for the shown entry panel; touch the name of the command that you want to send.

- \bigcirc Touch the + and buttons to adjust the audio.
- **8** Turn off the microphone (mute function).
- O Touch the button the start audio/video recording the current conversation.

A red light signal blinks next to the caller's ID during the recording.

Derived after 10 seconds.

OTouch and drag the image on the screen (or press the > arrow) to view the listed entry panel or analog video camera (if one is installed); the current audio/video call is ended.

Making a call

This device lets you call other indoor receivers (intercommunication), any devices connected over the Wifi network or, any entry panels.

Calling a contact on the favorites list

1 Touch the icon to access the list of favorite contacts.

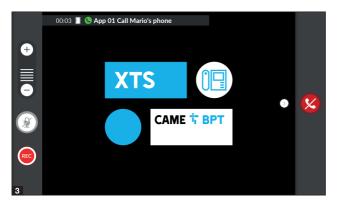

To fill the list of favorite contacts, see the chapter called "Contacts" on page 7.

Select one of the listed contacts to initiate a call.

Description Touch the icon to view contact's details.

• Touch the icon to remove the contact form the list of favorites.

When communication is underway, certain commands and information appear on the screen, as mentioned before in the "Answering a call" chapter on page 4.

Turn on communication to entry panel

2 Touch the icon to access the list of entry panels.

To fill the list of entry panels, see the "Contacts" chapter on page 7.

Select the entry panel to initiate a call.

This opens the door associated to the entry panel without initiating a call.

Opens a pop-up containing a list of auxiliary commands associated to the entry panel.

• Touch the icon to view contact's details.

• Touch the icon to remove the contact form the list of favorites.

When communication is underway, certain commands and information appear on the screen, as mentioned before in the "Answering a call" chapter on page 4.

Contacts

Touch the icon to access the contacts list.
